WHAT IS DIRECT PRIMARY CARE?

DPC is a health care model that **removes insurance companies** from primary care. Members pay a monthly fee and, in exchange, they have total access to their physician and unlimited access to a defined package of services.

There is no cost for any appointment with Dr. Olsen. All follow ups and health visits are included in your membership fee. The only cost you will incur will be for services performed by outside agencies like labs or specialists, which will be billed at a lowered doctor direct service rate. Additionally, these costs will always be known before the service is provided.

TRANSPARENT COST STRUCTURE

Individual: $300 per month

Couple: $500 per month

*** Pay one year in advance and get first month free**

*** Snowbirds can 'turn off' membership while gone**

ICON Medical
DIRECT PRIMARY CARE

Offering direct primary care with same-day access, comprehensive health services, and transparent pricing—redefining primary healthcare. Services are home based.

WHY CHOOSE DIRECT PRIMARY CARE?

HUGE SAVINGS AND HIGHER QUALITY CARE

Icon Medical DPC covers more than 85% of most health care needs, with no deductible, no co-insurance costs, and no claims. This is advantageously done with upfront and inclusive pricing. **With insurance**, coupling a DPC membership with a High-Deductible Health Plan saves an average of 30% (up to 60%) per year!

For patients **without insurance**, the savings from preventing one urgent care or emergency room visit can almost cover the entire cost of one year with a DPC practice. Additional savings can come from access to wholesale pricing on labs, radiology, and many procedures.

ABOUT DR. OLSEN, D.O.

As an Osteopathic Physician, her practice emphasizes a holistic approach to patient care, the interconnection of the body's systems, and Osteopathic Manipulation Techniques (OMT).

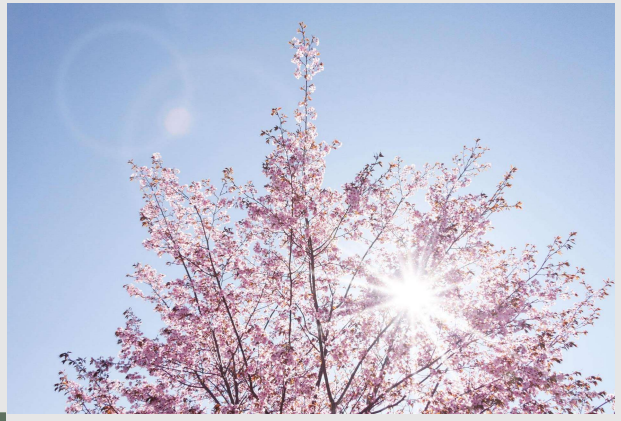
Over 13 years as a practicing physician in both active duty military and the private sector, Dr. Olsen has held roles in primary care, occupational medicine, and geriatric medicine.

"I highly recommend ICON Medical DPC! Dr. Olsen takes time to explain my results and also my options for treatment. I feel so supported and in charge of my health decisions."

- BRUCE W.

WHAT MAKES US DIFFERENT

- Holistic medical practice with extended appointment times to determine underlying causes and explore treatment options
- Direct access to your provider without gate keepers, call services, or patient portals
- Same day access with tele-health and in person appointments available next day
- Focus on proactive and preventative medicine instead of reactive interventions
- Home based care. We have no storefront so no waiting room and decreased exposure risk



Icon Medical DPC is dedicated to providing the best care right to your doorstep. No more waiting rooms or intermediate call services. Call, text, or video chat all direct to your doctor.
